Work Experience

3D & Interactive Media **2009 – Present**

Light of Day Media Productions Inc. [CEO]

I started my company – Light of Day Media Productions - in order to create freelance animation, mobile, and interactive media for clients while producing independent media.

- Produce 3D animation for marketing, tradeshow, commercials, visualizations, etc...
- Interactive, media-rich application development
- Develop privately owned entertainment IP

Clients range from new business start ups wanting a brand to promotional items.

Works:

<http://jeromecarteriphone.wix.com/lightofdaymedia#!portfolio/c12qh>

2D/3D / Multimedia **2002 – 2008**

IPhone Instructor - IDTech Sept '10
Performed IPhone and Java programming teaching.

Mapping/Web Maintenance – City of Chicago '05 to Q3 '08
Performed private and public website application support and development.

GIS Communication – Dept. of Planning '02 to '05
Performed Team Management, Marketing, Budgeting and Presentational duties.

Technical Skills

Motion Graphics

This is where my passion lies and thus, where I am always learning and improving! Experienced and practiced in modeling, 2d/2D animation, texturing, lighting, and compositing.

Tools

Adobe: Photoshop, Illustrator, After Effects, Premiere, Dreamweaver
Autodesk: Maya, ZBrush
Open Source: Blender
Others: Anime Studio

Programming

I'm what you could consider a "survivalist" programmer. I've had experience with a variety of languages (C++, Java, PHP, HTML/CSS, AS3, etc...) and know good programming practices. If something needs to be coded, it's a safe bet that I'll figure out a way to make it happen.

Education

Design & Animation

Westwood College **2012**

Bachelors Degree in Animation and Design- Topics included theories of 2d/3D animation, film/video production, graphic design.

1999 Associates Degree in Microcomputers and Microprocessors NRI, Washington, DC

1985 Associates Degree in Data Processing and Automation, Harold Washington College, Chicago

Workshops **2012**
